SPORTIAMO

SporTiAmo is an online, easy-to-use, sports-oriented platform that provides access to the tools available on the Sport e Salute portal. By filling out an online downloadable form and questionnaire (<https://www.sportesalute.eu/sportiamo.html>), users will receive individually tailored expert information on a variety of activities for entertainment, health, physical well-being, and mental well-being.

A presentation press conference was then organized in which the results of the questionnaires were presented, divided and analyzed by areas of Italy

PASSION & VICTORY

To be an athlete means to dedicate all one's time to sports activities. However, all too often, athletes forget to reflect about what happens at the end of a sports career. What goes through an athlete's mind when the spotlight fades, and there's no need to train anymore because there are no more titles to conquer? Also, and most importantly: what can be done to educate athletes about saving for retirement and avoid squandering their human and professional assets?

These are the questions that the workshop 'PASSION & VICTORY - Professional Integration of Athletes in the Post-Career', organized by the Associazione Nazionale Atleti Olimpici e Azzurri d'Italia (ANAOAI), aimed to answer. It was held on Wednesday, December 15, 2021, at the 'Marinozzi' Hall of the University of Rome 'Foro Italico' in Piazza Largo Lauro de Bosis 15 (entrance through the Giardino del Cinghiale).

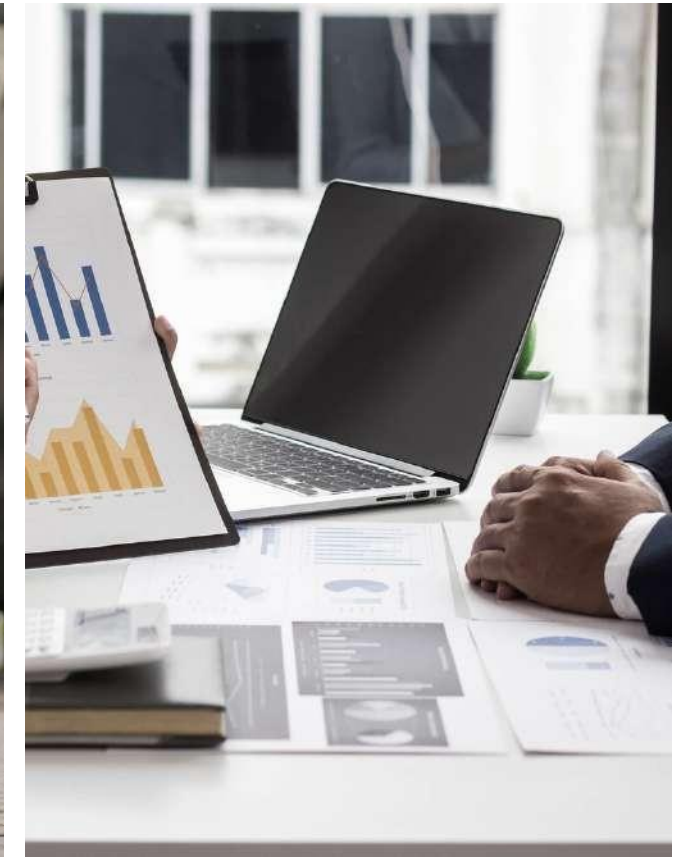

FORMAMENTE AI BLOCCHI DI PARTENZA

In sports, while women are increasingly taking center stage at the competitive level, there still exists a significant gender gap at the managerial level.

Whether within grassroots sports associations or at the provincial, regional, and national committee levels, the number of women running for council positions or managerial roles remains quite limited.

The FormaMente project proposal is directed towards all local sports organizations where enhancing the presence of women in managerial positions by actively involving them is deemed essential.

ADESSO SCENDIAMO IN CAMPO

Building upon the solid foundation established by the SporTiAmo project, conceived with the aim of promoting sports and ensuring that every individual can find the sports discipline most suited to their age, physical abilities, and preferences, we have developed a project where theory turns into practice. In this endeavor, our promotional efforts are more specific, accessible, and interactive.

SporTiAmo - Adesso scendiamo in campo aims to actively involve our Sections in the project by entrusting them with the promotion of specific physical activities and sports disciplines through the organization of designated events (selected based on the analysis of questionnaires completed for SporTiAmo)

SANREMO JUNIOR

PRESENTAZIONE INNO
ANAOAI

The Italian athletes, known as the 'Azzurri,' now have their anthem too, thanks to Lorenzo Porzio, an Olympic bronze medalist in rowing at Athens 2004 and today a renowned musician and orchestra conductor.

The Azzurri's anthem opened the world final of SanremoJunior on May 5, 2022, marking the first event of the 23rd edition of the GEF, the World Festival of Creativity in Schools. Several members of the ANAOAI were present at the event, representing the Association.

CELEBRATING 75 YEARS OF A.N.A.O.A.I

75 years mean 27.375 “steps” forward in ideals

For this very reason, the CDA has agreed to organize not a single event but a series of projects capable of engaging a wide and diverse audience, promoting sports and spreading the values of the Italian jersey (Maglia Azzurra) throughout the national territory. These values include SOLIDARITY, FRIENDSHIP, OVERCOMING PHYSICAL, PSYCHOLOGICAL, AND CULTURAL BARRIERS, TRUE INTEGRATION, and the promotion of CULTURE, not only sport culture.

AZZURRI'S RELAY CORTINA- MILANO

The project is structured as a 'staged journey,' a relay that can be undertaken on foot, running, cycling or mountain biking, by motorcycle, handbike, and wheelchairs, to involve a maximum number of athletes, both able-bodied and differently abled. The carefully planned route also aims to engage our local Sections, local administrations, and sports organizations.

Within this Azzurri's Relay, a series of initiatives and events are aimed at furthering the spread of our Association throughout the territory. For 75 years, we have been actively committed to offering a wide range of possibilities, projects, and benefits to our members and beyond.

ANNULLIAMO LE DISTANZE

TRAVERSATA DELLO STRETTO DI MESSINA

The 75th anniversary of ANAOAI also aims to celebrate the importance of the concept of UNION. The idea of a non-competitive swimming crossing from Calabria to Sicily is inspired by our country's rich swimming tradition and the significance of this stretch - 3.5 km that connect the mainland to the extraordinary island of Sicily.

This stretch tells a story, culture, great sporting traditions, and more. It represents a sporting achievement and symbolizes how an athlete's determination and preparation form the strongest driving force and the best strategy for overcoming adverse currents and various challenges.

ALL THE SHADES OF BLUE – TRAVELING PHOTO EXHIBITION

Considering that photography is the creative expression that best describes the passion and emotion of athletic performance, we have decided to incorporate a TRAVELING PHOTO EXHIBITION into this project throughout Italy, with the SUPPORT OF OUR SECTIONS. This exhibition aims to promote ethics and culture inspired by Olympic ideals, conducting cultural activities and reaching out to all age groups.

The objective of the competition is to create an exhibition of photographs that convey the values of sports in a broad sense: the intersection of sports and art. The photos are displayed in exceptional locations, symbolic places of our sections.
